### Washington Editor Says Times Are Hard

W. A. Ide, editor of the Raymond Review, Raymond, Wash., also member of the executive committee of the Washington State Press association, was in Richmond Tuesday and called at The Terminal office. Mr. Ide is visiting the California expositions. He says that only four of the fourteen large lumber mills in Raymond are operating their plants, and that times are not as good as in this locality.

### Methodists to Picnic At East Shore Park

Methodist churches and Sunday schools on the east side of the bay, including Richmond, Rust, Albany, Berkeley, Oakland, Alameda, San Leandro and Hayward, will unite in a picnic for everybody at East Shore Park on Saturday, May 15. Athletics, games, music, monologues, dialogues, a short play by young people of the First Church, Oakland, and a Japanese wedding by the young ladies of the First Church, Berkeley, will make the day enjoyable to all.

### Musical at Albany.

The program for the musicale to be given at Albany schoolhouse May 13 is being perfected. Among the local talent who will sing are Miss Josephine Becker, Mrs. U. C. Sawyer, Mrs. Grace H. Green, accompanist. An Oakland orchestra will discourse good music.

### Important Meeting.

The associated manufacturers held a demonstration in the Albany Methodist Episcopal Church on Tuesday evening. The wet evening allowed a fair number of people to attend and the demonstrators were more than pleased with the business done through this active church.

Henry C. Cutting lost his suit against the city to prevent the sale of bonds on property to pay the cost of street work, the restraining order being dismissed Monday.

### Excavators Find Gold Nuggets

J. B. Ogborn, supervising architect, while excavating on the new hotel site in Placerville, picked up some fine nuggets which he has been showing Richmond friends. This famous mining camp of early days was undoubtedly a rich one, if such beautiful specimens are to be found after so many years. Mr. Ogborn also found a gold ring, the set having been removed, perhaps a precious stone which came around the Horn in the days of '49.

### Iowa Representatives Come Over to Look

Henry B. Wagers of Ottumwa, Iowa, the Lowell of the middle west, is visiting the fair. Mr. Wagers is county auditor of one of the best counties in Iowa. He is going back to boost Richmond for factories. Ottumwa is about the size of San Jose and has one of the largest pork packing establishments in the country, the Morrell company.

### New Firm.

### Many Unemployed Starving in Chicago

The department of public welfare issued Wednesday in Chicago, shows appalling conditions in the number of unemployed in that city. The report proves that as many are out of work at present as last winter. Thousands of men, women and children are starving in Chicago, according to the unemployment survey. A Chicago business man who called at The Terminal, said that California people look prosperous and well fed. He says we are a favored people.

### Death Calls Pioneer Henry Lottman

After an extended illness of several weeks, Henry Lottman, pioneer brewer of Stege, died Tuesday night at Craven hospital. Mr. Lottman was well known in the bay cities, and was a popular business man. He leaves a wife and son, Frank Lottman, who is connected with the business.

Arrangements for the funeral are being made by E. B. Smallwood, undertaker, interment today in Fairview cemetery.

### Certificate of Individual Doing Business Under Fictitious Name

State of California, County of Contra Costa, ss.

I, the undersigned, do hereby certify that I am transacting business in this state, to-wit: At No. 237 Ninth st., City of Richmond, County of Contra Costa, State of California, under the firm name and style "Richmond Electric Co." That I am the only person interested in or having any interest in said business. That my residence is No. 237 Ninth st., City of Richmond, County of Contra Costa, State of California.

In witness whereof, I have set my hand this 5th day of May, 1915.

F. A. PINGER.

State of California, County of Contra Costa, ss. On this 6th day of May, in the year 1915, before me, Clare D. Horner, a notary public, in and for the county of Contra Costa, personally appeared F. S. Pinger, known to me to be the person whose name is subscribed to the within instrument, and he duly acknowledged that he executed the same.

In witness whereof, I have hereunto set my hand and affixed my official seal, at my office in the county of Contra Costa, the day and year in this certificate first above written.

Clare D. Horner, Notary Public, in and for the County of Contra Costa, State of California.

### Luxury and a Newspaper.

La Prensa of Buenos Aires is probably the most sumptuously housed journal in the world. Apart from a number of spacious and luxuriously furnished rooms for the accommodation of the staff the Prensa offices comprise a well equipped library open to the general public and a suit of reception rooms where dances are periodically given. The journal also retains the exclusive service of a highly efficient doctor who is at the disposal of every subscriber and whose prescriptions are made up free of charge on the premises. On the roof of the offices is an ear piercing steam whistle which sounds whenever any special item of news is about to be exhibited to the windows.

### Long Sentences.

Ruskin it is said has written more sentences of moderate length than any other classic writer of modern English prose. Frederic Harrison some years ago counted the words in a number of typical sentences, finding that in the earlier books it was no uncommon thing for Ruskin to run beyond the page before permitting himself and his readers the relief of a full stop, but in every case the sense is as clear as day. Wordsworth's poem on the "Charge of the Light Brigade" is a notable example of sustained connections. Apart from the opening and closing complete the poem consists of two very long compound sentences almost entirely comprised of adjectival clauses. The longer of the two sentences contains fifty seven deasyllabic lines. This is certainly a record in English verse.—London Advertiser

### Japan's Religions.

The two religions of Japan, Buddhism and Shintolem, are entirely different in the decorations of their temples. Temples and shrines dedicated to Buddha are very elaborate and beautiful. Those devoted to the worship of Shinto are very plain and ordinary.

## Contestants Lining Up For Battle of Ballots Monday

The coming city election which falls on next Monday will no doubt be one of the most interesting and hotly contested in the history of Richmond. The six candidates in the contest for the three seats in the city council are all good men, competent to fill the positions which they seek. It is to be hoped that the men elected to these positions of trust will do everything in their power for the upbuild and betterment of Richmond, a city still in its pioneer stage, but which is destined to be one of the greatest on the Pacific slope.

She Wanted a Title.  
A title gives the right to embroidery on the body linen. It is pleasant in a railway train to pour sweet on a coroneted pocket handkerchief. La Murechate Niel thought so, I dare say, in the summer of 1850. Her husband escaped the carriage of one of the best new thought that year in London. He also assured against heavy odds and the terrible blunders of the general staff victory to the French. His wife was with him when his marshal's baton was brought in with a letter from Napoleon III. Niel thought Miss Niel would have melted into tears from joy. Instead of that her mouth fell. "You are marshal, you are," she said. "That does not make me a duchess."—London Truth.

How One Got the Name.  
The father of a boy baby wished him to be christened Thomas. The mother favored the name of Robert. When they arrived at the church the matter was still undecided. The father informed the curate that the child's name was Thomas.

"Oh, no!" gasped the mother distressfully. "The curate, regarding the woman as the ruling spirit, promptly baptized the infant Otto."

Make the Days Count.  
The course of life is a thousand tries, then some crisis, nothing but green leaves under common sun and shadow and then a storm of a rare June day. And for more than the storm of the perfect day the common sun and common shadow, to make the sun shine, it is the "every day" that counts. They must be made to tell of the lives have failed.—William C. Bennett.

## ALLIES DRIVE TURK ARMY BEFORE THEM

King George of England Wires Congratulations to British Land and Sea Forces

Constantinople.—The British battleships Triumph, Vengeance and Majestic, besides a French cruiser, the Jeanne d'Arc, have been set on fire by shells from the Turkish forts in the Dardanelles, according to announcement made here May 1. Several torpedo boat destroyers and troop ships have been sent to the bottom.

The blazing battleships retired to ward Tenedos, the allied fleet's base, with the aid of tenders, being unable to proceed under their own steam. The Vengeance appeared to be the worst sufferer.

It is announced also that, besides clearing the French from the Asiatic side of the Gallipoli peninsula, the Turkish troops have swept all other invading forces from the peninsula except at Kaba Tepe.

Paris.—The Gallipoli peninsula gradually is being cut off from the rest of the Turkish Thrace, says the Athens correspondent of the Havas Agency in a dispatch dated April 30. It now is said to be impossible for the Turks to pass from one shore to the other. Their main forces are between Gallipoli and Maidos.

French Senegalese troops are reported to be conducting themselves with utmost valor on the Asiatic coast. They have occupied Yeni Shehr, while Nekor and Nagora are being violently bombarded.

London.—King George has sent to Acting Vice Admiral John Michael de Robeck, commander of the allied fleet, at the Dardanelles, and to General Sir Ian Hamilton, commander-in-chief of the Dardanelles land forces, a dispatch conveying to all ranks "hearty congratulations on this splendid achievement."

"Extensive mobilization arrangements have been put in force throughout European Turkey, owing no doubt to the operations of the allies in the gulf of Saros," says the Times Sofia correspondent.

"All the remaining available men," the correspondent adds, "including even the newly arrived refugees, have been summoned to the colors. A great concentration of troops is taking place at Keshan (26 miles north of Gallipoli), and heavy guns also have been sent southward. It seems doubtful, however, whether arms and ammunition can be provided for the new levies."

London.—The developments on the northern extremities of the two fronts, both east and west, the shelling of Dunkirk in France and the new German offensive movement aimed at the Baltic provinces, take precedence in the war news.

British aviators have discovered and attacked the German batteries, which, from a distance variously estimated by English observers at from sixteen to even twenty-eight miles, hurled great shells at the French port, but it remains to be seen whether the bombs dropped did enough damage to put the guns out of action.

London newspapers say this bombardment of Dunkirk means that the Germans still cling to their cherished idea of occupying the French coast nearest England, and more than one editorial writer points out that Flanders still remains the critical theater of operations.

## MAN AND WIFE ARE MURDERED AT RESORT

Are the Victims of Mysterious Crime at "Bit" House

Marysville.—The authorities of Yuba county are confronted with the most mysterious murder in the criminal annals of the county, as a result of the fatal shooting, some time April 29, of Emilie Picard, 70, a wealthy rancher and property owner, and his wife, Mrs. Ellen Picard. The murder took place at the "Bit" House, a roadside house conducted by the Picards, nine miles north of here.

The double murder was discovered April 30 by E. S. Mullin, a grocer boy of Honcut, who in turn notified J. E. Strain, a neighboring rancher, who notified the local authorities. Sheriff C. J. McCoy, District Attorney E. Ray Maxwell and Coroner J. K. Kelly immediately went to the scene.

## PRESIDENT'S MONGOLIAN COOK WEDS WHITE GIRL

Washington.—Ong Kung, cook on President Wilson's yacht Mayflower, has married a pretty American girl of 20. Navy regulations prohibit a honeymoon on the Mayflower.

Redwood City.—The estate of Senator Charles N. Felton, who died recently in Menlo Park, is worth \$138,365, according to the appraisement filed. His fortune had been estimated at not less than \$4,000,000. He is known to have transferred many valuable holdings to the Felton Company before his death. The extent of these will be shown in the report of the inheritance tax appraiser, to be filed later.

## GERMANS BOMBARD COAST OF FRANCE

Dunkirk Received 19 Shells of Large Caliber; 20 Killed and 45 Are Wounded

Paris.—The French war office April 30 gave out a report on the progress of hostilities reading as follows: "German warships have been reported at large off the coast of Belgium. Dunkirk received nineteen shells of large caliber. Twenty persons were killed and forty-five wounded. Some houses were destroyed."

This is the first time since the opening of the war that German warships have been credited with operating in the open sea in European waters, except for dashes from their base for the bombardment of English coast towns.

That the warships were able to appear off Dunkirk without being engaged appears to indicate another extremely daring exploit on the part of the Germans. French and British warships have maintained positions off the Belgian coast, constantly bombarding the land defenses of the Germans at intervals. Only German submarines have heretofore been able to operate in these waters.

Dunkirk is the northernmost coast city of France. It is on the straits of Dover, twenty-five miles north of Calais. The German movement which carried the Kaiser's army to its present line, extending from Ypres to the North Sea, had for its object the capture of the two important ports. Dunkirk is heavily fortified.

## PRIEST IS SHOT BY LOVER OF NURSE

Rev. P. Reinfels and Attendant, Clara Sherrer, Fired Upon; Their Assault Killed

Palm Springs.—Peter Glennon, a young ranch hand, was killed and Rev. P. Reinfels, a Catholic priest from Paloma, Ill., was wounded in the right forearm, in a battle Friday night, April 30, at Chino Canyon, a gulch frequented by health seekers, five miles from here in the Riverside county desert.

Father Reinfels was taken to Banning, where an examination revealed that the wound was only slight. Father Reinfels arrived at Palm Springs to recuperate and went at once to a tent in the canyon. Miss Sherrer, a nurse from San Francisco, attended him.

A man named Glennon is said to have been in love with the girl, and according to accounts given by the priest and the young woman, he made his way five miles from the ranch where he was employed to the Chino Camp and announced that he intended to kill both the clergyman and Miss Sherrer. He thereupon opened fire.

The priest received a bullet in the right forearm. As she and the right forearm. Miss Sherrer grappled man fought, Father Reinfels drew his own revolver and fired one shot.

Glennon stumbled and fell into a small spring near the tent.

Miss Sherrer asserted that still another shot was fired and that this came from Glennon's own revolver, which was discharged during her battle with her infuriated suitor.

## FIND \$20,000 IN GEMS ON SUSPECT IN HOTEL

San Francisco.—Mrs. B. J. Francis, fashionably dressed young woman, registered at the Stewart Hotel, was arrested in her apartments and brought before United States Commissioner Krull May 1 on the charge of smuggling \$20,000 worth of cut and uncut opals and sapphires into this country from Australia.

W. A. Tidwell, special treasury agent, and Charles W. Salter and John O. Smith, customs inspectors, took Mrs. Francis into custody and found in her possession more than 5000 jewels.

## ALLIES BUY \$250,000 WORTH OF HORSES FROM NEVADA

Reno.—French and British agents have placed a contract with Nell West, stockman, for 2,500 head of artillery horses within three months, the price being \$250,000.

Los Angeles.—May Day dawned in many sections surrounding this city with ice on the ground. It was the coldest day in May recorded in thirty-four years, and only once before has the minimum temperature been equaled. That was in May, 1881. Temperatures ranged from 41 here down to as low as 24 degrees at other places in Southern California. Heavy frosts were reported from many sections.

San Mateo.—Messages from Europe, delayed in transmission, owing to the war, were received April 29 by E. Buchmann, president of E. Buchmann & Co., informing him of the death of his father in Alsace-Lorraine, on April 2. Buchmann last saw his father four years ago, in Europe.

## TEUTONIC FORCES CRUSH RUSSIANS

Germans and Austrians Report Victory and the Capture of 8000 Soldiers

Cape Town.—An official statement issued here says that General Botha's Union of South Africa troops on last Sunday captured Olymbingue, an important post 100 miles east of Swakopmund, German Southwest Africa. The British losses were only eight killed. Five of these men lost their lives in the explosion of a mine during the advance up the Swakop river.

London.—According to the official statements both of Berlin and Vienna, the German and Austrian arms have achieved a notable victory in West Galicia, smashing the entire Russian center along a front of many miles, or, as Berlin roughly puts it, across the whole western part of Galicia, from nearly the Hungarian border to the point where the River Dunajec joins the Vistula, which is right at the frontier of Poland.

Though the eight thousand prisoners whom the Teutonic allies say they have taken does not compare with the number which some of Field Marshal von Hindenburg's rushes netted him in the north, the achievement, if subsequent reports bear it out, will mean at least a temporary check to the Russian forces which have been hammering their way westward since the fall of Przemyśl.

England and France make no claim to any gain in the west, the British contenting themselves with saying that the German attacks on the scarred Hill 60 in Flanders have been beaten back; the French confirm this.

The Germans maintain that they are pushing forward to the northwest of Ypres and toward St. Julien village, which they captured after the attack following their first extensive use of gas, but which they were forced to yield under counter attacks.

In the fighting in the Baltic provinces also, Berlin finds cause to rejoice. Rejecting the Russian contention that it is only a sporadic cavalry raid, Berlin wireless comment received May 4 says it seriously threatens the Russian right, and the fact that troops could be moved so far north before they encountered resistance is considered a reflection on the Russian intelligence system.

A number of vessels, neutral and otherwise, fell a victim to German submarines May 4, Norway being a particularly heavy loser.

## SHOOTS FRIEND'S WIFE THEN COMMITS SUICIDE

Infatuation Cause of Tragedy In Navarre Apartments

San Francisco.—Mad infatuation for the wife of his bosom friend caused George Meyers, a contracting plumber of Seattle, to shoot and kill Mrs. Phil Thom and then shoot himself. The tragedy occurred in the Chester Apartments, 245 Leavenworth street, at 7:30 o'clock p. m., April 29. Meyers died at the hospital at 9:30 p. m.

Phil Thom, the husband, a mining broker, returning home for the evening meal, found his wife dying in the arms of Mrs. A. Lewis, landlady of the Chester Apartments.

"My God! He has killed me!" cried Mrs. Thom as she staggered out of her apartments and fell into the arms of Mrs. Lewis.

A few minutes later Steward Stanley of the Central Emergency Hospital found Meyers lying wounded in the kitchen of the Thom apartment. Meyers had fired a bullet through his brain.

## S. F. CLUBMAN HURT IN BAYONET CHARGE

San Francisco.—For the second time since his services began in the French army, Michel Weill of San Francisco, a nephew of Raphael Weill, founder of the White House, has fallen wounded on the field of battle, according to cable advices received here by Raphael Weill.

He received his injury during a terrific bayonet charge in the battle at Epargne, on the Alsatian border. Painfully wounded, Weill was carried off the battlefield and now lies in a hospital at Toulon. His injury is said to be not serious.

Last September Weill, who is a sergeant in the infantry, was shot in the arm while fighting at Longwy. He was confined in the military hospital for several months and then hastened back to the front.

Michel Weill is a leader in social and club circles of San Francisco, and was one of the first French residents of this city to depart for the front when the war began.

## ALASKA ANTI-HANGING LAW IS VETOED BY GOVERNOR

Juneau, Alaska.—Governor J. F. A. Strong has vetoed the anti-hanging bill passed recently by the Territorial Legislature. In his veto message the Governor said the present law, leaving it to the discretion of the jury to declare whether murderers should be hanged or imprisoned for life was lenient enough. The Senate sustained the veto.

## ADVANCE MADE BY ALLIES ON TURKS

All But One of Battleships Are Inside the Straits After Long Bombardment of Forts

Tenedos.—Two towers of black smoke hang over the neighborhood of the Narrows. All but one of the allied battleships that April 28 were off the mouth of the straits have now entered and the rumble of guns is continuous.

The way from here to Kum Kale is now clear of all but scattered detachments of the enemy. The French have advanced some distance on land and have taken 500 prisoners.

The landing of troops at the Dardanelles has been effective in at least four places, one on the Asiatic and three on the European side.

One of these landings was made as the result of a clever comic ruse. Covered by a vigorous fire from the British ships nearly 1,000 donkeys packed with dummy baggage and mountain guns were put ashore at a certain spot. The Germans and Turks at once diverted a strong force in this direction. Meanwhile the real landing force easily accomplished its purpose some distance further up the coast.

The prisoners taken by the allies in the land fighting already number 7,000, including many German officers. Among the prisoners are many with revolver and bullet wounds, inflicted by their German officers, driving them to the attack while desperately endeavoring to prevent their retreat. The prisoners stated that the fighting has been of the most sanguinary character.

## WORK IS STARTED ON THE ALASKA RAILROAD

Construction of First Section of Line Begins at Ship Creek

Seward (Alaska).—Actual work on the construction of the first section of the Government's Alaska railroad has begun at Ship Creek, according to word received here. The first spike was driven at Ship Creek by Martha White, the first white child born in Cook Inlet, one thousand feet of track being laid to handle construction equipment.

## U. S. VESSEL ATTACKED BY GERMAN AIR SCOUT

Steamer Bombarded On Way to Rotterdam With Cargo

London.—The Reuter Telegram Company has received a dispatch from its correspondent at Rotterdam saying that the American steamer Cushing, from Philadelphia, arrived at Rotterdam April 30, and reports having been attacked by German air men in the North Sea last Wednesday. The airmen dropped two bombs, but no damage was done.

The Cushing was flying the American flag at the time of this attack, and her name was displayed on her sides in huge letters.

The steamer Cushing left Philadelphia April 11 for Rotterdam via Deal. She is 4320 tons net register, and she is 427 feet long.

## 1915 MOTHERS DON'T LOSE SLEEP OVER KIDS

San Francisco.—It was the hour at which the elves are expected to come blithely forth before all the little kids who were lost during the May Day celebration at the Exposition were restored to their parents. At midnight after most mothers had taken their little ones home to dream of their visit to Wonderland, Mrs. Forsee, the Exposition matron, still had three children on her hands, two brothers and a bright little girl of 9 years.

They were found wandering about in Mother Hubbard's cupboard in Toyland as happy and carefree as could be. The matron waited at the guards' headquarters with her three charges until midnight, expecting that the parents would call for their children, but as they did not do so she started forth to return them to the addresses which they listed in sleepy tones.

Mrs. Forsee found the mother of the two boys anxiously awaiting news from them, but when the matron took little Frances Mills to her home on Webster street at 1:30 o'clock the house was wrapped in darkness. She rang the bell many times before there was a response. Then Frances' mother came to the door. Both parents had gone to bed with the belief that their daughter would be well taken care of by the Exposition officials.

"Oh, mamma, I had such a good time," the little girl laughed happily, "I didn't want to leave."

Los Angeles.—Four thousand new members were gained by Protestant churches of Los Angeles during the Lenten season, as a result of the campaign directed by the Church Federation. It was announced when Dr. John Balcom Shaw, chairman of the evangelistic committee, received final reports.

## 2 DEAD, \$200,000 DAMAGE IN GALE

Scores of Lives Imperilled As 100 Mile an Hour Wind Sweeps Over the City

CROPS ARE AIDED BY SNOW

Thousands of Sheep Perish in Oregon and Idaho From the Cold Wave

San Francisco.—Two lives were lost, many injured and several hundred thousand dollars worth of property was destroyed in the windstorm which swept over San Francisco bay region Thursday, April 29, and continued for two days.

It was the worst windstorm this part of the coast has experienced since 1902, according to marine men. The storm gathered its greatest strength at about 3 o'clock in the afternoon, when its velocity was 100 miles an hour at Point Reyes and about 90 miles at the mouth of the Golden Gate.

Walter Peterson and John Ossin, ten-year-old schoolboys of Daly City, were electrocuted during the noon recess near the Vista Grande school. The lads were killed instantly when they attempted to crawl through a barb wire fence that had been charged by a high tension wire broken by the wind from the Hillcrest wireless station.

The most fearful force of the storm was visited on Monterey bay, where fifty-four fishing boats and other small craft were piled on the beach. The operators of the wireless station on the Farallone Islands reported seeing a launch with five men to the leeward of the group. The launch disappeared to the southward.

The greatest property damage was suffered by A. W. Jackson, wealthy lumberman, whose \$25,000 residence in Woodside, San Mateo county, was burned down.

The most startling adventure of the hurricane was experienced by four men, who were caught off Moss Beach in the fishing launch Leonora, owned by Salvatore Onorato of San Francisco. A great wave picked up the boat and turned it upside down, in which position it continued to float. One man leaped just as the comber pitched the boat upside down, but his companions were caught underneath the vessel. The man who jumped managed to swim toward the overturned craft, where he clung, watching for some sign of his companions. He had given up all hope for them when, after drifting for fifteen minutes, one of his comrades started him by crawling up the side of the launch. He announced the welcome news that he and the two others had clung to their places, finding that sufficient air had been trapped under the boat. All had on heavy boots, and they assisted each other with difficulty in taking these off before making an attempt to crawl out.

Redondo Beach.—A sixty-mile gale whipped Santa Monica bay April 30 and tossed breakers forty feet high on the beach, wrecking part of pier 1 and demolishing a scenic railway and another building. The damage is estimated at \$20,000.

Globe, Ariz.—A year of freaky weather reached a climax April 30 when snow began to fall. Snow on the eve of May is unprecedented, so far as available records show. The snow melted as fast as it fell.

Phoenix, Ariz.—Snow fell April 30 in the Salt River valley for the first time ever known in April. Snowfall in this section is unusual even in winter. This has been the wettest April in ten years.

Portland, Or.—Late report from all districts of Oregon indicate that aside from losses sustained by sheepmen in Umatilla, Baker, Union and Morrow counties, totaling about 30,000 head, worth approximately \$180,000, the damage done by snow, wind and frost last week was about offset by the benefits which the added moisture had brought to growers of hay, grain and fruits.

Boise, Idaho.—Southwestern Idaho experienced the worst April snowstorm in many years April 29 and 30. Reports from sheep camps state lambs are dying by the thousands as a result of snow and freezing weather. Fruit has not been damaged as yet, but fears are expressed that freezing temperature tonight may result disastrously to apples and prunes. The snow will be of great benefit to farmers, as the water supply for irrigation was low.

Goldfield, Nev.—One of the worst blizzards ever experienced in April swept over Southern Nevada early April 30. Snow began falling late last night. All forms of transportation have been delayed.

Los Angeles.—Secretary of the Interior Franklin K. Lane has affirmed the decision of General Land Office Commissioner Clay Talmann withdrawing from entry the quarter section of land of the famous "The Hawk" oil claims in Kern county, from which millions are said to have been taken. The land reverts to the United States Government, and there is no appeal from the decision.

For the cause that lacks assistance.  
Against the wrong that needs resistance.  
For the future in the distance.  
And the good that we can do.

Boost a little. Don't get stale.

When politicians fall out, then come the "exposures."

Mayor Garrard coined a "new one" all right. (Nobody hurt.)

As usual, the insurance lobby did some very fine work at Sacramento.

An adv. reads "Don't keep chickens; make them keep you." Ah! we are trying it.

No city hits the strides of substantial progress through the wrangles of its citizens. Standard.

The New York state senate has passed a bill to make bible reading compulsory in the public schools.

The Japs could easily put China out of business on the water. And they will never hesitate to "jump onto a cripple."

The Barnes-Roosevelt trial is exposing how money controls legislation. Of course, nothing of this nature ever happens at Sacramento.

John L. Davis of Oakland, candidate for mayor, received a majority of all the votes cast, and still he must be elected again May 11th to make sure.

The taking of a diamond ring from the dead body of Robert Connors, the Concord merchant, recently killed in an automobile accident, has stirred up some very ugly stories among Contra Costa county neighbors.

A dry town constable from Tehama county stopped off in Chico while on his way to the Exposition to "wet his whistle." He filled all the cracks in his hide, paid a fine of \$20, and continued on his way to the Expo.

Other cities will no doubt profit by the city of Denver's single tax amendment to the city charter to be voted on May 18. It is said that under this system Denver is bound to be one of the most prosperous cities in the country.

Five cent beans, including chicory coffee and stale bread, will hold a man for awhile, but the digestive organs will revolt in time on this bill of fare. Hundreds of men, it is said, in San Francisco are trying to subsist on beans. Why not "back to the farm" where there is a longer and better bill of fare?

A Missouri exchange prints a story of a candidate for office who ignored his home paper, claiming that the paper had no circulation, standing or influence in the community, for the only reason that the editor and publisher was a poor man and refused to accept "tainted money" or program. It happened that when the votes were counted, the "popular" candidate who snubbed the little editor was buried under an avalanche of votes so deep that his political aspirations received a chill from which they never recovered. Mr. Candidate was ever thereafter a "dead one." Four lines in cold type, a true synopsis of a crooked transaction in the candidate's public life, turned the trick. Many Missourians may recall this incident.

The stinger of the little fellow is often more effective than that of the big sheet, whose buzzing is not always the kind that works for the interest of the common weal.

WANTED—Everybody to get busy with the Terminal's swap column. When the principal medium of exchange (money) is scarce, try the Swap medium. Clothing, sewing machines, firearms, musical instruments, furniture, stoves, rugs, canaries, rabbits, dogs, cats, any old thing, trade it. Swap, especially when the coin is scarce.

High priced stores seldom advertise.

Immediately after the second water bond election, when Richmond so emphatically expressed itself unfavorably for the bonds, the water commission should have hung out the following sign at their Sixth street headquarters:

"We Chuck Up Our Jobs.  
Use Salt Water."

This would have pleased the "highbinder" so well that each commissioner would not only have received decorations of honor, but maybe a life pension. Now see what they're getting—"mud, mud, mud."

## Dance Frocks Spirit of 1850

## Newspaper Publishers Cannot Live On "Glory."

Judge George Thomas of Columbus, Neb., rendered a decision that if a person accepts a newspaper that is sent him, he must pay for it. The decision was rendered in a case brought by the Columbus (Neb.) Telegram against a man for \$2.35. The Telegram had been sent to the man's home and he accepted the paper. When called upon to pay for it, he refused, and suit was brought. When Judge Thomas heard the evidence he instructed the jury to bring in a verdict for the Telegram.

Judge Thomas' decision was in accordance with that recently made by the district court of appeals of Kansas city, Mo., in which the court said:

"The preparation and publication of a newspaper involves much mental and physical labor, as well as an outlay of money. The common law principle is, that when a man receives and uses a paper he is bound to pay for it. He benefits and receives a pleasure from such labor and expenditure of the publisher as fully as if he had appropriated any other product of another's labor, and by such act he is held liable for the subscription price."
